Line 1:

**INSERT** New Finding of Fact:

*"Performance-Based Incentive Levels*

Upon further review, Staff believes that the caps on the commercial performance-based incentive levels should be reduced to reflect the lower incentive costs necessary at this time and to avoid a large differential between UNS' and Staff's proposed APS' PBI levels. Staff now recommends setting the PBI caps at a slightly higher level than is recommended by Staff for APS in 2012, or \$0.092 per kWh for 70-200 kW systems, \$0.088 per kWh for 200-400 kW systems, and \$0.084 per kWh for 401 kW and higher systems for UNS. This results in a reduction to the PBI budget line item in Staff Option One from \$1,837,072 to \$1,786,546 and in Staff Option Two from \$1,709,178 to \$1,692,416. This represents a reduction in the budget of \$50,526 under Staff Option One and \$16,762 under Staff Option Two."

Page 21

**DELETE** Lines 21-23 and **REPLACE** with:

"Staff recommends setting the PBI caps at \$0.092 per kWh for 70-200 kW systems, \$0.088 per kWh for 200-400 kW systems, and \$0.084 per kWh for 401 kW and higher systems for UNS. This results in a reduction to the PBI budget line item in Staff Option One from \$1,837,072 to \$1,786,546."
